**L** [www.linkedin.com/in/abhik063](https://www.linkedin.com/in/abhik063)

### OBJECTIVE

Senior Software Engineer with nearly three years of experience specializing in Mulesoft. Skilled in React.js, Node.js, MySQL, MongoDB, Java, and JavaScript. Developed and deployed full-stack applications for AICTE. Recognized with Apisero Aces and Raving Review Awards for creating scalable solutions and contributing to Apisero's success. Seeking to leverage my technical skills and achievements to take on new challenges and contribute to the success of a forward-thinking company.

### EXPERIENCE

#### 2023-Till

Senior Software Engineer, Apisero, Inc. (an NTT Data Company), Bangalore, Karnataka

**Key Responsibilities:** As an L3 engineer, my key responsibilities included maintenance of various APIs deployed over MuleSoft Platform, RAML changes and PROD Deployments.

#### 2021-2023

Software Engineer, Apisero, Inc. (an NTT Data Company), Bangalore, Karnataka

**Key Responsibilities:** As an L2 engineer, my key responsibilities included maintenance of various APIs deployed over MuleSoft Platform

#### 2020-2021

Full Stack Developer Intern, AICTE(NEAT Cell), New Delhi, India

**Key Responsibilities:** As a Full Stack Developer Intern, my responsibilities included creation of a web based AI Translation Tool and maximize applications' efficiency, data quality, scope, operability, and flexibility.

### PROJECTS

- Incontro:** Video Conferencing Web Application made focused on Educational Institute
- MuStream:** A music streaming web application made using PHP. This project was made to include an mp3 player functionality. The whole project was made using CSS, HTML, JavaScript, PHP and MySQL.
